Finish in Four!

- Degrees require a minimum of 120 credits.
- Take at least 15 hours each fall and spring semester.
- Sign up for an advising appointment each semester before registration.
- Follow the schedule you set with your academic advisor.
Changing your schedule

You can add classes/change a section during the first 5 days of class (fall/spring) through MyOleMiss.

You can add a class during the second week of class (by permission of instructor).

You can drop a class through MyOleMiss until the 30th day of class (fall/spring).

Talk with advisor/dean's office before making changes.

Transfer Credits

- Request permission from your dean’s office before taking courses through other schools
- Permission to transfer credit form available online
- Make sure UM has all of your transcripts
- Check your transfer equivalency report (TER) for all transfer classes for which you have received UM credit—a course can be counted once, so you will not receive credit for a repeated course!
Important Information

- UM Today
- Daily Mississippian
- UM Office of the Registrar
- Blackboard
- Your Academic Advisor
- Check Your Ole Miss Email!
- Check Your Ole Miss Email!
- Check Your Ole Miss Email!
Attend your classes—always!

- Keep your seat—let your instructor know if you have an emergency and must be absent the first day of class (you could be dropped from the class)

- Verified class attendance will allow you to receive your financial aid disbursement...

- ...and being in class will help you make higher grades!
Be engaged-*always*!

- Sit at the front of the class—skip over the cheap seats and pick a prime seat in each class!
- Ask questions about things you do not understand...and contribute to class discussions.
- Take good notes and keep them organized!
Be prepared—always!

- **Two to three** hours of prep time **outside** of class for every hour spent in class.
- A 3 credit hour class = **6 to 9 hours** outside of class per week.
- A 15-hour scheduled requires **30-45 hours** of prep/work outside of class per week.
- Actively read materials **before** the class—give your information a place to “hang its hat!”
- In high school, most of your work is **IN** class, while in college, most of your work is completed **OUTSIDE** of class.

**Wow, this is different than high school...**
Declaring a major

- Must declare after completing 45 credit hours—it is required to continue receiving financial aid
- All degrees require a minimum GPA of 2.0 (some degrees require higher)
- EDHE 105 (Freshman Studies sections 10-13)
- EDLD 201 (spring course)
- Some programs have a special application process
- Ask your academic advisor how to declare the major you have selected

Exploring Majors & Careers
Myths About Majors

- “I have to know what I want to do the minute I step into college”

- “My major in college defines what I do for the rest of my life”
Choosing a Major/Career

1. Get to know yourself

2. Make a list of majors/careers you think you would enjoy

3. Explore those occupations/majors

4. Based on your research, narrow down your list of occupations/major

5. Speak with a Career Professional
Choosing a Major/Career

1. Get to know yourself
   ○ Assess your VIPS (Values, Interests, Personality Traits, and Skills)
   ○ Take personality or interest inventories
   ○ Myers Briggs Type Indicator (MBTI) or Strong Interest Inventory

2. Make a list of majors/careers you think you would enjoy
   ○ Take time to gather facts and weigh alternatives based on what you’ve learned about yourself.
   ○ Make a list by first eliminating those that do NOT interest you.
Choosing a Major/Career

3. Explore those occupations/majors
   - What kind of skills or education is needed for particular jobs?
   - What types of jobs can I do within certain majors?
   - Don’t forget to research curriculum and courses within that major
   - Talk with students in that major, individuals in that occupation, career counselors, and academic advisors.

4. Based on your research, narrow down your list of occupations/majors
   - Consider pros/cons of each major as compared to your VIPS and any factors you think are “must haves” in a career
   - Add variety to your major by choosing a minor or emphasis in another area
   - Investigate your interests by engaging in a experiential learning opportunity.
Experiential Learning Opportunities

- Internships
- Service Learning
- Undergraduate Research
- Study Abroad
- Shadowing
- Getting involved on campus
- Joining a national student organization
5. Speak with a Career Professional
